Quality Animals from Leading Breeders

Message from the CCA

The Canadian Charolais Association has been and continues to be led by progressive cattlemen who remain engaged in the best interests and progress of the breed. There's a long history of proven performance that yields a profitable product and as a result, Charolais has found itself in the spotlight with no sign of the high tide receding.

Getting out and being involved with the Charolais breeders is of benefit to everyone's operation. There's not only a common goal with the ongoing development of the Charolais breed, but also the comradery that brings breeders together. Please use this directory, go for a drive, and take the time to get to know the hospitable Charolais breeders of Ontario. As you travel through the province, you'll find that behind the cattle are some of the greatest strengths in our breed, our people. Our members are proud, knowledgeable cattlemen who would love to share their story.

Ontario, it's yours to discover!

Mel Reekie
General Manager, CCA

Message from the OCA president

On behalf of the Ontario Charolais Association, I would like to extend a warm welcome to all Charolais enthusiasts from across the province, country and beyond.

Whether it be bull and female sales, conferences or shows, Ontario is truly a hub of activity for the Charolais breed where the outstanding quality of the cattle is only surpassed by the quality of the people and breeders alike.

As you travel throughout the province it becomes very apparent that the Charolais breed has been and remains the breed of choice for cow/calf, backgrounder and feedlot operations. It is our intent that you will be able to utilize the directory to help in your search for the top quality Charolais genetics that are available here in Ontario.

Sincerely,
Ryan Nesbitt

ECHO SPRING CHAROLAIS

A photograph of a rural landscape at dusk or dawn. In the foreground, a herd of sheep is grazing in a green field. In the middle ground, there is a large, weathered wooden barn with a gambrel roof. The background shows rolling green hills and a line of trees under a soft, golden sky.
